

# Wells Fargo & Company

“ ReversingLabs has significantly improved the quality of our threat intelligence. [They have a] large database with availability, speed and accuracy. ”

Jake Lee,  
IT Senior Vice President

## Company Profile

COMPANY:  
**Wells Fargo & Company**

COMPANY SIZE:  
**Fortune 100 (\$1.87 Trillion)**

INDUSTRY:  
**Financial Services**

## Challenges

Wells Fargo claimed to be missing 10 - 25% of threats that impacted their business through using VirusTotal and FireEye. The Wells Fargo security teams was suffering from alert fatigue often responding to false positives.

## Use Cases:

- **Malware Analysis and Threat Intelligence**

## RL vs. Competition:

ReversingLabs was selected among competitors because of the following:

- The breadth of file format support
- Support for large and complex files
- Speed of file analysis
- High-volume processing capabilities and scalability
- Quality of context and explainability

## Solution:

- **Malware Analysis & Threat Intelligence**
  - File Reputation Services
  - A1000 (On Premises)
  - Titanium Scale

### Benefits

#### Faster threat response due to:

- Accelerated malware analysis times
- Reduction in false positives and alert fatigue
- Improved SOC efficiency
- Less time spent reverse engineering

#### Easily integrated into existing SIEM, SOAR, and TIP with hands-on support

#### Expanded value of existing security investments

## About ReversingLabs

ReversingLabs is the trusted authority in file and application security, protecting software development and powering advanced security solutions for the most advanced cybersecurity and Fortune 500 companies. The ReversingLabs Titanium Platform® powers the software supply chain security and threat intelligence solutions

essential to advancing enterprise cybersecurity maturity globally. Tracking over 35 billion files daily, and the ability to deconstruct full software binaries in seconds or minutes, only ReversingLabs provides that final exam to determine whether a single file or full software binary presents a risk.
